

Eco-Friendly Resort
DODDAMAKALI FISHING CAMP
Tariffs

Doddamakali Camp is situated 6km upstream from Bheemeshwari. This place is as remote, rugged and as primitive as any place could be. Hugging the River Cauvery, the Camp is absolutely protected and riparian—sylvan in solitude and great for bird sightings.

This place is an ideal locale for corporate team building and out outdoor exercises. Keeping the potential of the Camp in mind. Being close to Bangalore, yet difficult to access, Doddamakali was the preferred location to offer corporate houses for their off-sites and outdoor training needs.

ACCOMMODATION

This Camp has 10 luxurious tented cottages with attached bath. However, there is no electricity here. We provide a few hurricane/ solar lamps, which add to the close-to-nature experience of the place. Located sufficiently away from any habitation, Doddamakali offers complete peace and tranquility.

FACILITIES

Sit back under the gazebo and tuck into a buffet lunch or dinner, among other hungry souls like you. While breakfast is generally a quiet affair, as you savor the view and the natural ambience along with the food, the evening barbecue by the riverside is more spirited and lively. As twilight dissolves into the night, a bonfire is lit and while you recline on a lawn chair or swing leisurely in a hammock, preparations are afoot for the barbecue - of grilled chicken, fish or vegetables.

Hammocks are fixed outside each tent and hut for those who would like to laze or read a book in the open. A safe tumbling net is provided for guests to have a rollicking time.

ACTIVITIES

The Camp is being exclusively used for corporate training center. The Camp offers excellent resources for outdoor activities such as treks, games and exercises. For those interested in trying a hand at fishing for the first time, our guides can help you with joy fishing.

LOCATION

To reach Doddamakali, you have to go past Halagur and drive through metal road and reach Shimshapura village. Halgur is a small town past Kanakapura on the Bangalore-Kanakapura road. From Shimshapura, you have to either walk down or negotiate through winding road in a 4WD jeep. We suggest you stay at Doddamakali, if you are interested in real wilderness and are prepared to rough it out.
