JUNGLE RETREAT

Nestling in the foothills of the Nilgiris, hiding from the heat and dust of the workday world, sheltering lovers of nature is a paradise called Jungle Retreat. Bordering the twin wildlife sanctuaries of Bandipur and Mudumalai, this is a sanctuary for human beings, where you'll find peace as well as adventure, always made that much more pleasant by the warm hospitality of the Mathias family. The Retreat is surrounded by dry deciduous forests, which are inhabited by deer, panthers, gaurs, tigers, bears and the highest population of the Asian Elephant anywhere in the world. The area boasts an incline from 3000 ft. above sea level to 6500 ft., which provides a whole range of climatic conditions for flora and fauna of every description to flourish amid the sparkling streams and virgin jungles.
