

Eco-Friendly Resort

CASA DEEP WOODS

In the heart of the Mudumalai Forest, on the banks of a natural mountain stream in an exotic wildlife Getaway: Casa Deep Woods.

600 trees grace the five acres of Casa Deep Woods. And not a single tree was cut as the Getaway took shape. Rather the well-furnished cottages were built around the trees.

Casa Deep Woods takes great pride in being a luxurious, eco-friendly Getaway. All waste in this Getaway is recycled to ensure that the surrounding forest is not polluted in any way.

No fences, walls or boundaries divide Casa Deep Woods from the surrounding forest. So you'll never know where the Getaway ends and where the forest begins.

Wake up every morning to your on special alarm: the chirping of a hundred birds. And look forward to a day filled with activities.
